## Capital Expenditure for 2017-18

Our ongoing mission is to not only meet our annual budgetary requirements but also raise extra funding for Capital Expenditure. Our goal for end of the 2017-18 school year is to be able to fund the replacement of the 20+ year old water fountains throughout the school with new water fountain/water bottle filling stations:

The estimated cost for this project is approx. **\$6000**

We have reduced PTO expenses over the last two years by approx. \$2,500 (without compromising any of the scheduled activities) and boosted fundraising in order to grow a Capital Fund that will allow us to meet our goal.

Some of our historic capital purchases have been playground equipment, gymnasium bleachers, auditorium curtains, A/C units in classrooms, foyer mosaic, film making equipment.

**Details of all fundraisers, ongoing PTO activities and contact information can be found on our PTO Website:**
